| 7904232400 | Govt. Eng. College Opposite, Omalur TK,
Salem DT – 636012

SUMMARY

To continuously improve my technical and professional skills and become a skilled professional in the field of Electronics and Communication Engineering.

MINI PROJECTS

- Automatic Door Lock System using Embedded and IoT
- Fisherman Border Crossing Detection System
- Smart Railway Heartbeat Detection System

TECHNICAL SKILLS

- Arduino Fundamental
- Embedded systems
- IOT basics
- PCB Basics
- Java Basics
- C Programming
- Electronic Communication Basics
- Java

EDUCATION

B.E. Electronics and Communication Engineering
R.P. Sarathy Institute of Technology

CGPA: 8.01

Higher Secondary Education

Golden Spark Matri Higher Secondary
school

PERCENTAGE.69.5

CONFERENCE AND SEMINARS

- Participated in National Level Conference
 - Participated in International Level Conference at PSV College of Engineering
 - Presented paper on Automatic Border Crossing Systems
 - Participated in seminars, symposiums, and hackathons conducted by various colleges
-

ACHIEVEMENTS

- Won prizes in project presentations and paper presentations
- Active participant in internal and external hackathons
 - Department Symposium Overall Student Coordinator
 - Department Sports Coordinator
-

INTERNSHIP

- **Zeko Power**

Learned about EV charging systems and EV working principles
Gained hands-on experience in PCB manufacturing Improved practical knowledge in electronic systems and communication

- **Mikrosun technologies**

Basic concepts of embedded system designs
